3. Origin of the products:

- 3.1 Name (No) and address of establishment, approved by the Competent Veterinary Service in the Member State:
- slaughterhouse: _____
 - cutting plant: _____
 - cold store: _____
- 3.2 Administrative-territorial unit:
- _____
- _____
- _____

4. Certificate on suitability of products in food

I, the undersigned state/official veterinarian certify that:

The certificate is based on the following pre-export certificates (see attached list in case more than two)¹:

Date:	Number:	Country of origin:	Administrative territory:	Approval number of the Establishment:	Name and quantity (net weight) of the product:

- 4.1 Meat and raw meat preparations are obtained from slaughter and processing of healthy animals in establishments, approved by the Competent Veterinary Service for export and operating under its constant supervision.
- 4.2 Animals, whose meat is intended for export into Russian Federation, have been subjected to veterinary inspection prior to slaughter, their carcasses and internal organs - to post-mortem veterinary-sanitary inspection, conducted by State/official Veterinary Service.
- 4.3 Meat and raw meat preparations were obtained from the slaughter and processing of clinically healthy animals, originating from premises and/or administrative territory officially free from infectious animal diseases, including ²:
- foot-and-mouth diseases, rinderpest, contagious bovine pleuropneumonia, vesicular stomatitis and peste des petits ruminants - during the last 12 months in the territory of the EU Member State;
 - tuberculosis and brucellosis - during the last 6 months in the premises;
 - anthrax and blackleg - within the last 20 days in the premises.
- 4.4 Meat and raw meat preparations are derived from animals that originate from herds where there is no case of Bovine spongiform encephalopathy (BSE) and do not belong to birth cohorts of BSE positive animals. After slaughter animals older than 30 or 48 months (underline the appropriate) depending on Member States³ were tested, with negative results. Specified risk materials (SRM) were removed according to the OIE Code recommendations.
- 4.5 Veterinary post-mortem inspection did not show, that meat has alterations indicative for foot-and-mouth disease, rinderpest, anaerobic infections, tuberculosis, leucosis and other contagious diseases, was not affected by helminths, and for being poisoned with various substances, serous coats were intact, lymphatic nodes were not removed.
- 4.6 Meat has no blood clots, unremoved abscesses, gadfly larvae, mechanical premixes, odour and flavour untypical for meat (fish, drugs, medicinal herbs, etc), it was not defrosted during the storage, has the core temperature in flesh not exceeding minus 8 degrees Celsius for the frozen meat and not exceeding plus 4 degrees Celsius for chilled meat, does not contain conservative substances, is not contaminated by Salmonella , was not treated by coloring substances, ionizing or ultraviolet rays.
- 4.7 Animals, from which meat is derived, were not subjected to the exposure of natural or synthetical estrogenic, hormonal substances, thyreostatics, antibiotics, other drugs and pesticides used prior to slaughter no later than authorised by instructions on how to use them.
- 4.8 Microbiological, chemical-toxicological and radiological characteristics of meat and raw meat preparations correspond to actual veterinary and sanitary requirements and rules of Russian Federation.
- 4.9 The meat and raw meat preparations are recognized fit for human consumption.
- 4.10 Meat was marked with health mark of State/official veterinary inspection with specification of name or number of meat - processing plant (slaughter house), where animals were slaughtered. Raw meat preparations must have identification mark on package or polyblock. Stamped label is placed on package in a way to ensure that opening of package is impossible without breaking the label.
- 4.11 Single-use containers and packaging material correspond to hygienic requirements.
- 4.12 The means of transport are treated and prepared in accordance with the rules approved in the EU.
