

UPOV VARIETY DESCRIPTION

- | | |
|---|--|
| 1. Reference number of reporting authority | Nr. 9 |
| 2. Reference number of requesting authority | 10.R.03 |
| 3 Breeder's reference | Polli 1 |
| 4. Applicant (name and address) | Estonian Agricultural University Polli
Horticultural Institute
Polli, 69104 Karksi-nuia,
Viljandi Country, Estonia |
| 5. Botanical name of taxon | <i>Rubus idaeus L.</i> |
| 6. Common name of taxon | Raspberry |
| 7. Variety denomination. | `Aita` |
| 8. Date and document number of UPOV | `Guidelines for the conduct of tests for
distinctness, homogeneity and stability`
International Union for the protection of new
Varieties of raspberry (<i>rubus idaeus L.</i>). –
2003.09.04. |
| 9. Date and/or document number of national test guidelines | - |
| 10. Testing authority | Fruit Variety Testing Laboratory |
| 11. Testing station(s) and place | Latvia, State Dobeles,
Latvia State Institute For Fruit Growing |
| 12. Period of testing | 2004. -2006. g. |
| 13. Date and place of issue of document | 26.11.2007.
Latvia, State Dobeles,
Latvia State Institute For Fruit Growing |
| 14. Group: (if characteristics of number 15 are used for grouping, they are marked with a G in that number) | |
-

15. Characteristics Included in the UPOV Test Guidelines or National Test Guidelines

Reference number of reporting authority

Nr. 9

UPOV No	Characteristics	States of Expression	Note
1.	Plant: habit	Semi-upright	2
G. 2.	Plant: number of current season's canes	medium	5
G. 3	Very young shoot: anthocyanin coloration of apex during rapid growth	present	9
4.	Very young shoot: intensity of anthocyanin coloration of apex during rapid growth	strong	7
5.	Current season's cane: bloom	weak	3
6.	Current season's cane: anthocyanin coloration	medium	5
7.	Current season's cane: length of internode	medium	5
8.	Current season's cane: length of vegetative bud	medium	7
9.	Varieties which fruit on previous season's cane in summer: Dormant cane: length	long	7
10.	Varieties which fruit on current season's cane in autumn:	-	-
G. 11	Varieties which fruit on previous season's cane in summer: Dormant cane: color	greyish brown	2
G. 12	Spines: presence	present	9
13.	Varieties with spines present only: Spines: density	sparse	3
14.	Varieties with spines present only: Spines: size of base	medium	5
15.	Varieties with spines present only: Spines: length	medium	5
16.	Varieties with spines present only: Spines: color	greenish brown	3
17.	Leaf: green color of upper side	light	3
18.	Leaf: predominant number of leaflets	equally three and five	3
19.	Leaf: profile of leaflets in cross section	straight	2
20.	Leaf: rugosity	weak	3
21.	Leaf: relative position of lateral leaflets	touching	2
22.	Terminal leaflet: length	medium	5
23.	Terminal leaflet: width	medium	5
24.	Pedicel: number of spines	few	3
25.	Peduncle: presence of anthocyanin coloration	present	9
26.	Peduncle: intensity of anthocyanin coloration	medium	5
27.	Flower: size	medium	5
28.	Varieties which fruit on previous season's cane in summer: Fruiting lateral: attitude	semi-erect	3
29.	Varieties which fruit on previous season's cane in summer: Fruiting lateral: length	medium	5
30.	Fruit: length	long	7
31.	Fruit: width	broad	7
G. 32.	Fruit: ratio length/width	small	3

G. 33.	Fruit: general shape in lateral view	road conical	2
34.	Fruit: size of single drupe	medium	5
35	Fruit: general shape in lateral view	broad conical	2
36.	Fruit: glosiness	weak	3
37	Fruit: firmness	soft	3
38	Fruit: adherance to plug	medium	5
G. 39	Fruit: main bearing type	only on previous year's cane in summer	1
40.	Varieties which fruit on previous year's cane in summer: Plant: time of vegetative bud burst	medium	5
41.	Varieties which fruit on current year's cane in autumn: Time of cane emergence	-	-
42.	Varieties which fruit on previous year's cane in summer: Time of beginning of flowering on previous year's cane	early	3
43.	Varieties which fruit on current year's cane in autumn: Time of beginning of flowering on current season's cane	-	-
G. 44.	Varieties which fruit on previous year's cane in summer: Time of beginning of fruit ripening on previous year's cane	early	3
45.	Varieties which fruit on current year's cane in autumn: Time of beginning of fruit ripening on current year's cane	-	-
46.	Varieties which fruit on previous year's cane in summer: Length of fruiting period on previous year's cane	medium	5
47.	Varieties which fruit on current year's cane in autumn: Length of fruiting period on current year's cane	-	-

16. Similar Varieties and Differences from These Varieties

No similar Varieties whose existence is known to us
